

Empowering Conferences with Intelligent Scheduling & Engagement.

Smart Events. Seamless Meetings.

A single, elegant platform that carries every attendee — and every organizer — from invitation to insight, without the spreadsheets in between.

● Smart Scheduling

● AI Assistance

● Live Engagement

Built for corporate conferences, summits & large-scale networking events.

— THE CHALLENGE

Great events are won or lost in the details.

Scattered Communication

Invitations, reminders and updates spread across email threads with no single source of truth.

Manual, Error-Prone Scheduling

Meeting slots, room preferences and visa paperwork tracked by hand across disconnected sheets.

Little Real-Time Visibility

Organizers find out what's working — or what's not — only after the event has ended.

THE ANSWER

Event Bridge is an end-to-end event and meeting management platform built for corporate conferences, summits, and large networking events. It streamlines the entire attendee journey — invitation, registration, hotel room preference selection, scheduling, breakout sessions, and voting.

With a powerful admin console, an intuitive attendee portal, and smart automation running underneath, Event Bridge turns a logistically complex event into a seamless experience — for the people running it, and the people attending it.

EVENT BRIDGE, AT A GLANCE

- One console for the full event lifecycle
- Attendee self-service for every preference
- AI assistance built into the experience
- Real-time insight for organizers, always on

One platform. Every step of the journey.

1

Invite

Branded invitations go out and RSVPs flow straight back into the console.

2

Register

A dynamic form captures details once — no re-entry, no duplicate records.

3

Set Preferences

Hotel rooms, sharing options and visa documentation, selected and automated in one step.

4

Match & Schedule

Smart 1-to-1 and 3+1 meetings, suggested and booked without a single scheduling clash.

5

Break Into Sessions

Attendees create, join and move between breakout rooms without friction.

6

Vote, Live

Organizers pre-share questions; results appear on screen the instant votes are in.

7

See It All, In Real Time

Every RSVP, meeting and vote rolls up into one console — no post-event guesswork.

Every step, connected. Every attendee, informed.

— KEY HIGHLIGHTS

Why teams choose Event Bridge.

End-to-end event lifecycle management

Smart 1-to-1 & 3+1 meeting scheduling

AI-powered attendee assistance & support

Live voting with instant result display

Dynamic event setup, configurable by admin

Smart recommendations for meeting partners

Hotel preference selection & visa automation

Breakout session creation and participation

Cross-platform access, with full mobile support

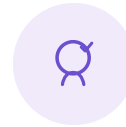

Built for how meetings actually happen.

Smart Meeting Scheduler

Enables attendees to schedule 1-to-1 and 3+1 meetings with smart suggestions, slot availability checks, extensions, and conflict-free booking — every time.

SCHEDULING

AI Chatbot Assistance

Provides instant support for event navigation, FAQs, registration guidance, and troubleshooting — so no attendee is ever left waiting on a reply.

AI SUPPORT

Live Voting Module

Allows organizers to pre-share questions and enables attendees to vote live, with instant visibility of winning options and results on the big screen.

ENGAGEMENT

Dynamic Registration & Preferences

Offers flexible registration and preference setting — hotel rooms, flight details, tour packages, advertisement choices, sponsorship interests and more.

REGISTRATION

The logistics, handled quietly in the background.

Breakout Session Management

Supports creation, joining, and exiting of breakout sessions, ensuring smooth coordination for parallel discussions or workshops of any size.

SESSIONS

Hotel & Visa Automation

Automates room selection, room-sharing options, and visa documentation with editable templates — for faster, error-free processing at scale.

LOGISTICS

Dynamic Event Setup

Every element of the event — from branding to form fields to session tracks — is configurable by the admin, with no development cycle required.

ADMIN CONSOLE

Cross-Platform Access

A consistent experience across desktop, tablet and mobile — attendees stay connected to their schedule and sessions from anywhere on-site.

MOBILE-READY

Intelligence that works quietly in the background.

Event Bridge doesn't bolt AI onto the experience — it builds the experience around it. Two capabilities do the heaviest lifting.

01 Smart Recommendations

Suggests the right meeting partners based on interests, role and event goals — so every 1-to-1 and 3+1 has a reason to happen.

02 AI Chatbot Assistance

Handles navigation questions, FAQs and troubleshooting in real time, freeing organizers to focus on the room, not the inbox.

Value that shows up for everyone.

For Organizers

- ✓ **One console, zero spreadsheets**
Every registration, preference and meeting lives in a single admin view.
- ✓ **Configure without a dev team**
Branding, forms and session tracks are set up directly in the console.
- ✓ **Real-time event pulse**
See RSVPs, meetings booked and live votes as they happen — not after.
- ✓ **Lighter logistics load**
Hotel and visa handling automated, with far fewer manual touchpoints.

For Attendees

- ✓ **Meetings worth attending**
Smart recommendations connect them with the right people, not just any people.
- ✓ **Self-service preferences**
Rooms, flights and sessions selected in minutes — no back-and-forth emails.
- ✓ **Help, whenever it's needed**
The AI chatbot answers questions on the spot, day or night.
- ✓ **A voice in the room**
Live voting means opinions show up on screen — instantly, not in a follow-up survey.

— BRING IT TO YOUR NEXT EVENT

Your next event, orchestrated effortlessly.
